Acknowledgements

Thanks are due to Jenny Nachtigall, whose translation of the text into German for Textem Verlag (Hamburg) proved a vital source of its sharpening and discussion in both languages and thank you to Johannes Paul Raether, who not only provided us with our cover image but also read and discussed earlier drafts of this volume. Thanks are also due to Danny Hayward and Anthony Iles for tireless, incisive proofreading and editorial dialogue, and to Halle für Kunst Lüneburg (Stefanie Kleefeld, Valerie Knoll and Hannes Loichinger) for commissioning the project and ongoing support, and to all who have hosted iterations of aspects of this work-in-process in public over the last few years.

German-language edition will be published by Textem later in 2016. <http://www.textem.de/index.php?id=verlag>
